eEHX Best Practices:

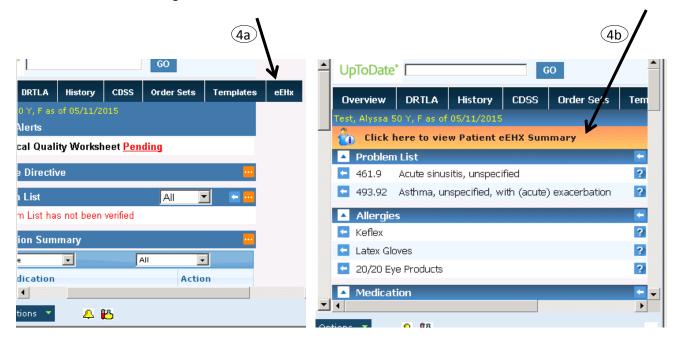

- 1. Search eEHX prior to creating a new patient.
- 2. Import the patient if the demographics have been confirmed.
 - This allows you to have instant access to the patient's chart prior to the visit under the referral policy.
- 3. Be sure to still collect the consent when the patient's arrives.

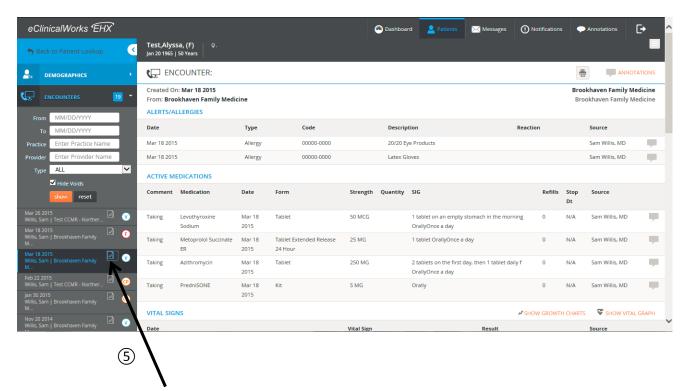

NOTE: Be sure to update the consent date when importing.

• Go to the patient's HUB and select eEHX Consent to update.

- 4. To view the Patient's eHealthSummary in eEHX,
 - a. Select the eEHX tab on the right chart panel
 - b. Then the orange bar.

5. To view a locked progress note, click graph icon.

- 6. Non-eCW progress notes can be found in the document section in eEHX.
 - a. Select Documents.
 - b. Select the progress note.
