Presentation	Diane Banks gave a very informative talk on Advanced Directives. She presented a PowerPoint that she has shared with church groups and at other community meetings that goes over the importance of everyone having Advanced Directives for the tough end-of-life decisions.			
	Staff at the WSMC-Provider based clinics are required to ask patients if they have Advanced Directives in place and to offer them the 5 Wishes booklet if they do not. Everyone seemed to glean a lot of information from the presentation that they will be able to discuss more readily with patients.			
	Diane offered to those present that she is always willing to present her program to community groups, as she is very passionate about this issue.			
	The presentation concluded with a question and answer session.			
Adjourn	The meeting was adjourned at 1:15 p.m.			
Next Meeting	February 19, 2014
