Meaningful Use Stage 2 Deadline Alert!

**Registration of Intent for Public Health Measure Deadline is
March 1, 2015**

Public Health Registration of Intent for Stage 2

This is a reminder for eligible professionals (EPs) participating in the Medicare or Medicaid EHR Incentive Programs that are planning to meet one of the Stage 2 public health measures in 2015. The deadline to register intent to initiate ongoing submission with the public health agency (PHA), program, or other body to whom the information will be submitted is within 60 days of the start of the EHR reporting period. For 2015, this deadline for EPs is March 1, 2015, because the EHR reporting period was originally scheduled to be a full year.

For information and instructions on registering intent to initiate ongoing submission for a public health objective, visit the Michigan Department of Community Health Public Health Reporting website:

Potential 2015 Reporting Period Changes

On 1/29/2015, CMS announced its intent to engage in rulemaking for EHR Incentive Program changes for 2015. As part of the changes, CMS is considering shortening the 2015 reporting period to 90 days, which if adopted through the rule making process, would make March 1, 2015 the deadline for the first 90 day EP reporting period. If approved, there would be additional deadlines corresponding to the three remaining 90 day reporting periods in 2015.

Should the rule making not be approved, any provider that didn't meet the March 1, 2015 deadline would be unable to successfully attest to one of the Stage 2 public health measures. Updates will be communicated as they become available.
