Presentation	Presenters this month were Ed Worthington and Kelly Saxton from NPO discussing the ACO dashboard and clinical quality measures.			
	Ed and Kelly presented a slideshow (complete with comic relief) that outlined the ACO and how and why we have become a part of it.			
	We were able to view the dashboard and see how the measures are reported. They also showed us how to search for Gaps in Care and populate patient lists.			
	There was discussion about how the data is captured. The eHx does block 12-18 year olds from view related to complex privacy issues in this minor age group. There was also a clarification of Problem List and Medical History when it comes to the information in the medical record. A suggestion was also made that patients with medication intolerances that would prevent them from fulfilling a measure should have those listed in the Allergy List (e.g. ACE or ARB's, Statins)			
	Ed and Kelly spent a considerable amount of time for questions and answers from the office staff.			
Adjourn	The meeting was adjourned at 1:00 p.m.			
Next Meeting	May 24, 2016
