Presentation	The presenter today was Jenny Olson, RPH for Family Fare in Manistee. She gave us a very informative look at the history of prescription medications from her 30 years of experience, all from the pharmacy/pharmacist perspective.			
	Jenny went over the Free and Low Cost prescriptions that are available through Spartan Stores and discussed all of the options available for patients with no insurance as well as those with Medicare plans reaching the “donut hole”.			
	Next, Jenny discussed the Medication Therapy Management program in place for care management related to medications. Discussion centered on quality measures that Pharmacists must now comply with for reimbursement, just like practices/providers are face with.			
	Lastly, Jenny brought examples of prescriptions she receives in the pharmacy, and we shared with her how we e-prescribe through eCW (Dr. Hengy’s office is using minimal e-prescribing, still writing prescription for the main part).			
Adjourn	The meeting was adjourned at 1:00 p.m.			
Next Meeting	August 20, 2014
