Measure Name	Depression Remission at Twelve Months
Relevance	<p>NPO Population Clinical Quality Dashboard [NQF 0710: Behavioral Measure] ACO Quality Measure #40 [GPRO: "At Risk" Measure] MIPS Clinical Quality Measure [CMS 159 (EHR): Outcome Measure]</p>
Measure Definition	<p><i>The percentage of patients, 18 years of age and older, with a diagnosis (new or existing) of Major Depression or Dysthymia and an initial PHQ-9 score > 9, who demonstrate remission at 12 months, as defined by a PHQ-9 score < 5</i></p>
Measurement Period	<p>The Measurement Period is defined as the current calendar year (January 1 - December 31)</p>
Index Date	<p>The Index Date is defined as the date of the first PHQ-9 score > 9 occurring between 13 months (December 1) and 1 month (November 30) prior to the start of the Measurement Period</p>
Denominator	<p>The Denominator consists of patients who:</p> <ol style="list-style-type: none"> I. Are \geq 18 years of age at the beginning of the Measurement Period II. AND, Have been seen for an applicable visit encounter during, or within the 12 months prior to, the Measurement Period <ol style="list-style-type: none"> A. AND, Scored > 9 on a PHQ-9 Depression assessment administered during the above applicable encounter B. AND, Had an active diagnosis for Major Depression (including Remission) at the time of the above applicable encounter C. OR, Had an active diagnosis of Dysthymia at the time of the above applicable encounter
Numerator	<p>The Numerator consists of patients, from the Denominator, who scored < 5 on a follow-up PHQ-9 Depression assessment, administered 12 months (+/- 30 days) after the Index Date</p> <p style="text-align: right;"><i>(continued)</i></p>

Measure Name	Depression Remission at Twelve Months <i>(continued)</i>
<p>Exclusions and/or Exceptions</p>	<p style="text-align: center;">Patients are excluded from this measure for one of the following reasons:</p> <ul style="list-style-type: none"> I. They received palliative care services during the Measurement Period II. OR, They had an active diagnosis for a Personality Disorder during the Measurement Period III. OR, They had an active diagnosis for Bipolar Disorder during the Measurement Period IV. OR, They received care in a long-term residential facility during the Measurement Period
<p>Measure Documentation</p>	<p style="text-align: center;"><u>To Qualify For This Measure</u> <i>(Denominator Documentation)</i></p> <ul style="list-style-type: none"> I. The patient must have been seen for an applicable visit encounter during, or within the 12 months prior to, the Measurement Period <ul style="list-style-type: none"> A. The following E&M codes identify applicable visit encounters: <ul style="list-style-type: none"> 1. 90791 - 90792, 90832, 90834 and 90837 2. 99201 - 99205 and 99212 - 99215 B. Record the appropriate E&M code in the Billing section of the Progress Note for the visit <i>(Progress Notes → Billing)</i> II. The patient must have had an active diagnosis for Major Depression or Dysthymia documented at the time of the above applicable visit <ul style="list-style-type: none"> A. The following ICD-10 codes indicates Major Depression (including Remission): <ul style="list-style-type: none"> 1. F32.0 - F32.5 and F32.9 2. F33.0 - F33.3, F33.40 - F33.42 and F33.9 B. The following ICD-10 code indicates Dysthymia: F34.1 C. Document the appropriate diagnosis code in the Problem List of the patient's chart in eCW <i>(continued)</i>

Measure Name	Depression Remission at Twelve Months <i>(continued)</i>
<p>Measure Documentation <i>(continued)</i></p>	<ol style="list-style-type: none"> 1. Add a diagnosis to the patient's Problem List in one of the following ways: <ol style="list-style-type: none"> a. <i>Progress Note (or Virtual Visit) → Assessments → Problem List → Add</i> b. From the ICW (Right-Hand Chart Panel), click the "Overview" tab <ol style="list-style-type: none"> 1) Click the orange button (with three dots) in the Progress Note band 2) Click "Add" 2. Helpful Tip: When adding a new diagnosis to the Problem List, enter the onset date (if known) in the associated "Onset Date" field <p>III. The patient must have scored > 9 on a PHQ-9 Depression assessment administered between 1 and 13 months prior to the beginning of the Measurement Period</p> <p>A. Access the PHQ-9 Depression Assessment tool as follows:</p> <ol style="list-style-type: none"> 1. From within the open Progress Note for the visit, click on the carat adjacent to the "Smart Forms" field (SF; top, left-hand corner of note) 2. Select the PHQ-9 questionnaire from the drop-down list of options 3. A new window, with the questionnaire displayed, will open <p>B. Document the patient's answers to <u>all</u> of the PHQ-9 questions</p> <ol style="list-style-type: none"> 1. When the answers to all questions have been recorded, a numerical score will be generated 2. Click "Save" 3. Click "OK" to close <ol style="list-style-type: none"> a. The PHQ-9 questions, responses and final score will import into the Progress Note b. The PHQ-9 responses and final score will also be saved as structured data within the EMR <p style="text-align: right;"><i>(continued)</i></p>

Measure Name	Depression Remission at Twelve Months <i>(continued)</i>
<p style="text-align: center;">Measure Documentation <i>(continued)</i></p>	<p style="text-align: center;"><u>To Satisfy This Measure</u> <i>(Numerator Documentation)</i></p> <p>I. Recall the patient for an applicable visit encounter 12 months (+/- 30 days) after the Index Date (the date of the initial PHQ-9 > 9 Depression assessment administered during the year prior to the Measurement Period)</p> <p>II. Administer a follow-up PHQ-9 Depression assessment at the above applicable encounter</p> <p style="margin-left: 40px;">A. Access the PHQ-9 Depression Assessment tool from the "Smart Forms" section of a Progress Note, as described above</p> <p style="margin-left: 40px;">B. Record the patient's answers to all PHQ-9 questions</p> <p style="margin-left: 40px;">C. Save and close the PHQ-9 Depression assessment</p> <p style="margin-left: 80px;">1. The PHQ-9 responses and final score will automatically import into the Progress Note for the visit</p> <p style="margin-left: 80px;">2. The PHQ-9 responses and final score are stored as structured data in the patient's chart in the EMR</p> <p style="margin-left: 40px;">D. A follow-up PHQ-9 score < 5 indicates Depression remission and satisfies this measure</p> <p style="margin-left: 40px;">E. Note: If more than 1 PHQ-9 Depression assessment is administered during the 11-13 month follow-up window, select the most recent PHQ-9 date and score within that window to determine if Depression remission has been achieved</p>
<p style="text-align: center;">Exclusion and/or Exception Documentation</p>	<p style="text-align: center;"><u>To Exclude a Patient From This Measure</u> <i>(Exclusion/Exception Documentation)</i></p> <p>I. If applicable, document the receipt of Palliative Care services during the Measurement Period</p> <p style="margin-left: 40px;">A. Document a Palliative Care intervention as structured data</p> <p style="margin-left: 80px;">1. eCW recommends the following structured data path:</p> <p style="margin-left: 40px;"><i>Progress Notes</i> → <i>Preventive Medicine</i> → <i>Counseling</i> → <i>Provider to Provider Communication</i> → <i>Palliative Care</i></p> <p style="text-align: center;"><i>(continued)</i></p>
