**Subject:** Most Requested BCBSM Quality Sheets

Attached please find the two most requested BCBSM Quality Tip Sheets:

1. Diabetes – requested most often for nephropathy on page 2, a measure where NPO is still below the state average
2. Weight Assessment and Counseling for Children – NPO below state average for Physical Activity Counseling which is on page 2 of the document

If you have any questions about how to enter in the different Health eBlue websites, also known as HeB (BCBSM commercial, BCBSM MA, BCN – commercial and Advantage), please let us know so that we can get you training, answers, etc.

Thank you,

*Kris*
