

MIPS Eligibility Determinations

What happens if I am associated with multiple practices in the look-up tool?

- ▲ If you're in multiple practices, you are required to participate in MIPS for *each associated practice* (TIN/NPI) where you exceed the low-volume threshold
- ▲ You will receive a payment adjustment based on the TIN/NPIs where the low-volume threshold was exceeded
- ▲ Any associated practices (TIN/NPIs) where you did not exceed the low-volume threshold (or was otherwise excluded from MIPS) would not receive a payment adjustment
- ▲ You can receive different MIPS Final Scores and subsequent payment adjustments at each associated practice
