

eCW User's Group 11.10.23

Facilitated by:
Abby Wilson, M.D.

Highlights from National User's Conference 2023

- Upgrade to Version 12.0 or 12.0.2
- eCW University Integrated
- Artificial Intelligence (AI)
- Improvements to Office Flow
- Provider Tips and Tricks

Use Updated Versions

- The desktop/installed software version of eCW is obsolete.
- eClinical Works will no longer be prioritizing tickets with failed processes in the software version. **They are also no longer fixing software glitches.
- eCW STRONGLY encourages upgrading to the web version - 12.0 is available now and 12.0.2 will be available soon (if not already).
- Web version 12.0.2 has MOST of the slick updates from the conference

Scheduled EHR Upgrades

eClinicalWorks has introduced the ability to receive scheduled upgrades when a new version of eClinicalWorks is available.

[Report System Down/Performance Issues](#)

Uncoded Allergy Initiative

Identify uncoded allergies and convert to coded allergies in patient records. Please [click here](#).

[Upgrade EHR](#)

Allergy Bulk Update Tool is available. To

Information Blocking

Click here for the latest resources on the information blocking regulation.

Error-Prone Abbreviations

Avoid Using Error-Prone Abbreviations in Directions.

Click here to check out the latest updates

AI: Artificial Intelligence

- Siri, Google Assistant, Alexa - these are all AI assistants who complete quick, time-saving tasks on personal devices
- EVA is an AI already available in eCW
- Coming soon will be MANY upgraded AI features to streamline work flow for everyone in the office
 - Talk to your eCW rep about available upgrade dates for your practice
 - Once 12.0.2 is your operating system, you will need to activate the AI module and select the options you want for your practice

Front Office AI

- Front Office Assistant - allowing easy “find appointment”, “block schedule”
- Insurance Assistant - allowing for quick insurance verification and insurance code uploads
- Visit Summary Assistant - conversion of visit summary in one language to another language (for now Spanish - other languages coming soon)

The screenshot displays the eClinicalWorks interface for a patient named Kelsey Millsee. The header includes the user 'KC' and the system name 'eClinicalWorks 12'. The patient's profile shows her name, age (42 Y), sex (F), and address (1 One Street, Onesquare, NY 01111). Below this, there are tabs for 'Medical Summary', 'CDSS', 'Rx', 'Labs', 'DI', 'Procedures', 'Growth Chart', 'Imm', and 'T.Inj'. A row of action buttons includes 'Progress Note', 'Scribe', 'Orders', and 'h Insights'. The patient's demographic information is summarized as: 'MILLSEE, Kelsey Jan 1, 1981 (42 yo F) Acc. No. 9879820'. Detailed patient information includes: 'Patient: Millsee, Kelsey Preferred Name: Kel DOB: 01/01/1981 Age: 42 Y Sex: Female Phone: 811-110-1111 Primary Insurance: BCBS Payer ID: 64222 Address: 1 One Street, Onesquare, NY-01111 Account Number: 9879820 Encounter Date: 09/14/2023 Provider: Sam Willis, MD Test Appointment Facility: Foxborough Medical Practice'. The 'Subjective' section is currently set to 'Verify Histories', which is highlighted with a blue background and an information icon. A red arrow points to this button. Below it, the 'Chief Complaint(s)' are listed as 'new pt - yearly exam'.

Automated Registry

The screenshot displays the 'Registry' section of a software interface. At the top, a blue header contains the word 'Registry' with a dropdown arrow. Below this is a horizontal navigation bar with several tabs: 'Registry Assistant' (highlighted with a purple box), 'Demographics', 'Vitals', 'Labs/DI/Procedure', 'ICD', 'CPT', 'RX', 'Chief Complaints', 'Medical History', and 'Imaging'. Below the navigation bar is a 'Conversational Search' section. It features a large text input field containing the question 'Which patients has Dr. Willis seen in the last year?'. To the right of the input field are a microphone icon, a 'Clr' button, and an 'Interpret' button. Below the input field is a warning message: 'Ensure the vitals and medication jobs are up-to-date on their respective tabs so that the Registry can fetch the latest data.' At the bottom, a light blue note states: 'Note: The Registry will only return results for patients with encounters.' with an information icon.
